

**A range of “environmentally friendly” Finishing Units**

## HEIGHTS New Generation of Violet Finishing units

HEIGHTS is one of the Worlds largest producers of Violet Plate Processors. We have been producing this technology for over 10 years and have over 5,000 installations.

In co-operation with “World-class” plate manufacturers, HEIGHTS have developed the Blue Amber Range of products.

Blue Amber products offer printers & plate-makers a more controlled, cleaner working environment, reducing the use of both Chemistry & water.

Upgrade Kits

Upgrade kits, can be made available to configure your Existing Heights Violet processors into a Violet Finishing Unit.

## WHO ARE HEIGHTS ?

Heights have been manufacturing Professional Printing Plate processors for over 15 years.

We hold OEM contracts with Kodak for the Mercury Thermal Processor, and FujiFilm for the FLP 1260 Photopolymer Processor.

We have 1000's of installations of Conventional, Thermal & Violet processors all over the World.

We are based in 4 sites Halifax UK, Trenton NJ, USA, Shanghai China, and we have a factory in France manufacturing OEM Flexographic Processors.

We have the perfect product to suit your customers needs.
